## STAKEHOLDER'S WORKSHOP

9 NOVEMBER 2017

Malta College of Arts, Science & Technology - Paola

To whom it may concern,

I am pleased to invite you to the second **Stakeholder's Workshop of FOWARIM** Project (Fostering Water-Agriculture Research and Innovation in Malta) that the Malta College of Arts, Science & Technology (MCAST) is organizing in collaboration with the Italian partner CIHEAM-Bari, at Paola on November 9, 2017.

FOWARIM objective is to strengthen the research capacity of MCAST's Water Research and Training Centre in crucial themes related to the field of water use in agriculture. This will be achieved by creating a favourable environment for capacity building targeting Maltese researchers, research institutions networking, research policy development. Hence, multi-stakeholders engagement is essential for FOWARIM to ensure that tackled problems are relevant and reflect the actual needs of Malta.

This second workshop event represents a crucial phase (called back-casting) of the participative process, aiming at defining several (policy) actions to reach a specific (desired) end point.

It is worthy stressing that the participation of a wide number of local stakeholders will enable achieving a satisfactory final result.

Your participation will provide fruitful contribution in generating fresh ideas and new hints for debate.

I thank you for your willingness to participate.

Yours truly

Malcom Borg
